

New SALW control projects are initiated in support of the Western Balkans SALW Control Roadmap

UNDP Offices in the Western Balkans will implement new projects on topics ranging from countering illicit arms trafficking to mainstreaming gender in SALW control, in the framework of the Western Balkans SALW Control Roadmap.

Eight new projects will be implemented by UNDP Offices in Albania, Bosnia and Herzegovina (BiH), Montenegro, North Macedonia, Serbia and Kosovo* in the area of small arms and light weapons (SALW) control, in the period 2019-2021, for a total budget of USD 5,714,887. The projects are funded by the Government of Germany through a EUR 5.5 million contribution to the UNDP Funding Window Governance for Inclusive and Peaceful Societies for arms control activities, for the period 2019-2021.

The projects, covering a wide array of topics from countering illicit arms trafficking to enhancing ballistic capacities, security upgrade of SALW storages, and mainstreaming gender in SALW control, were selected within a call for project proposals addressed to UNDP Offices in the Western Balkans.

The projects are implemented in the context of the regional project Support to the implementation of the Roadmap for a sustainable solution to the illegal possession, misuse and trafficking of Small Arms and Light Weapons (SALW) and their ammunition in the Western Balkans, implemented by UNDP SEESAC.

Overview of the selected projects:

Support Albania's Law Enforcement Authorities to Strengthen Firearms Criminality Evidence Management and Investigation Capacities, will be implemented by UNDP Albania. The project will enhance the capacities of the Albanian State Police to operate with higher standards and more effective procedures in the area of criminal investigation, by developing standard operating procedures for crime scene investigations (CSI), improving the collection, management and storage of ballistic evidence, and providing necessary equipment for CSI and ballistic analysis.

Countering Illicit Arms Trafficking (CIAT), will be implemented by UNDP BiH. The project will enhance the capacity of the Border Police in BiH and of 14 entity and cantonal Police Agencies to combat illicit arms trafficking across BiH and beyond, by developing a database on the legal transport of weapons, improving the SALW Identification Tool, providing specialized border control equipment, and strengthening inter-institutional cooperation.

Urgent Action on Ammunition Destruction - Project EXPLODE+, is implemented by UNDP BiH. The project assists the BiH authorities in the reduction of ammunition stockpiles to a manageable level, by supporting the disposal of 1,421 pieces of ammunition.

Support to counter Illicit arms trafficking, will be implemented by UNDP Kosovo. The project will strengthen the capacities of border entities to detect firearms, ammunition and explosives and conduct detailed risk profiling through specialized training, improved weapons registration, provision of detection equipment, and development of knowledge products.

Rogami SALW Storage Upgrade, will be implemented by UNDP Montenegro. The project will further improve the security of SALW and ammunition stockpiles in Montenegro by supporting the upgrade of two SALW storage magazines and guardhouse of the Ministry of Interior/Police Directorate SALW storage location Rogami.

Improving national SALW-related practices and building violence-resilient communities will be implemented by UNDP North Macedonia. The project will support the Ministry of Interior of North Macedonia to improve its weapons registration platform and the Information Management System used for collecting, analysing and sharing SALW-related data, leading to a more effective and efficient control and response to firearms-related threats.

Reduce risk - Increase safety – Towards ending SALW misuse in domestic violence context will be implemented by UNDP Serbia. The project will reduce the misuse of firearms in the context of violence against women, domestic violence and other forms of gender-based violence by improving practices and procedures related to criminal justice response to SALW misuse, setting up the basis for evidence-based policy making, increasing the awareness among general population on the dangers of illicit SALW possession and misuse, and developing knowledge packages for risk reduction of firearms misuse in the context of gender-based violence.

Advancing the Capacities of the Ministry of Interior in the Field of Custody Chain, Crime Scene Investigations and the Ballistic Laboratory in the Field of Operations and Investigations in Trafficking of Firearms and Firearms Criminality, will be implemented by UNDP Serbia. The project will strengthen the regulatory framework for custody chain and crime scene investigation (CSI), increase the capacity of CSI units through specialized training and equipment, and improve the management and storage of ballistic evidence, and ballistic testing.

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity.

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
