

Regional iBase designer training delivered to IT Experts

A five-day regional iBase designer training was organized in Belgrade from 20-24 May 2019.

As a part of SEESAC's partnership with governments across South East Europe aimed at establishing Firearms Focal Points (FFPs), a regional iBase designer training was conducted in Belgrade. The training follows the purchasing of necessary software licenses in 2018 and 2019 and the assistance that was provided in linking the relevant firearms databases. The trainings aim to further support the IT experts who are using or maintaining the iBase within the FFP units, to ensure the sustainability of the process. The training will also contribute directly to the implementation of the Roadmap for a sustainable solution to the illegal possession, misuse and trafficking of Small Arms and Light Weapons (SALW) and their ammunition in the Western Balkans by 2024.

What do Firearms Focal Points do?

FFPs are information collection and analysis units comprised of ballistic experts and criminal investigators that enable the building and updating of the intelligence picture on firearms trafficking. SEESAC is providing support to the establishment of the FFPs through provision of relevant equipment, training and technical advice. FFPs will provide information to the strategic and operational levels of decision making through the coordinated collection and sharing of information (criminal and ballistic), to enhance the ability of law enforcement and the judiciary to analyze and coordinate direct actions against the threats and risks of firearms misuse and trafficking.

The training is organized within the European Union Council Decision 2016/2356/CFSP, in support of SEESAC's disarmament and arms control activities in the South East Europe.

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
