## SEESAC participates in the 10th Annual Regional Cooperation Council Meeting

SEESAC Coordinator attended the 10th Annual RCC Meeting held in Dubrovnik on 29 June. Regional Cooperation Council (RCC) Secretary General Goran Svilanovic co-chaired the meeting with Ambassador Mario Horvatic, representing the Croatian SEECF Chairmanship-in-Office 2016-2017.

The participants assessed the RCC's activities and the progress that has been made over the past 12 months. Mr. Svilanovic stated that "tangible progress was made in furthering trade and investment integration, designing effective employment policies and their implementation, strengthening cooperation in education, research and innovation, supporting good governance and strengthening security".

During the meeting there was a fruitful discussion about how regional cooperation can energize the EU integration process in South East Europe. Ms. Balon contributed by describing SEESAC's achievements in 2016 and sharing priorities for 2017, which will promote cooperation between a range of different stakeholders in South East Europe.

Mr. Svilanovic presented the RCC 2016-2017 Annual Report. It outlines the main RCC activities and achievements in the past year. It also lays out the overall background and crucial developments impacting and shaping the activities of the RCC and the region of South East Europe in the reporting period. The report says that dialogue among the RCC participants from SEE has intensified in a variety of different regional cooperation formats, which has generated a positive momentum for further developing the nexus between the region and the EU. At the end of the meeting the annual report was endorsed by all the participants.

## Cookies on our web page

### What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity.

### How do we use cookies?

A visit to this page could generate the following types of cookie.

#### Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies, services you have asked for, like shopping baskets or e-billing, cannot be provided.

#### 2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

#### 3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

#### 4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

### Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
