## SEESAC ACTIVITY REPORT – AR/102 GENDER AND SMALL ARMS SECTION ADDED TO SEESAC WEBSITE

<b>SEESAC FUNCTIONAL AREA</b>	<b>FA 3 - Management Information</b>
<b>SEESAC OPERATIONAL ACTIVITY</b>	<b>OA 1 - Capacity Building OA 3 - Information Management and Exchange Activities</b>

During 2007 SEESAC has been working on issues specifically relating to gender and small arms. A regional strategy on Gender Issues in Small Arms Control and Armed Violence Prevention Activities has been developed, as well as several specific projects aimed at addressing the issue from different perspectives. SEESAC has also developed management information materials to guide organisations engaging in the area.

A resource section has been created on the SEESAC website to give access to information and material collected and produced to date. The section provides information about SEESAC’s ongoing projects and related activities in the field of gender and small arms. It also provides links to the SEESAC Gender Strategy and other materials and websites of interest to stakeholders. It will be updated regularly with new information as it emerges.
