

REGIONAL REPORT ON ARMS EXPORTS IN 2007

**REGIONAL REPORT ON
ARMS EXPORTS IN 2007**

The **South Eastern and Eastern Europe Clearinghouse for the Control of Small Arms and Light Weapons** (SEESAC) has a mandate from the United Nations Development Programme and the Regional Cooperation Council to support all international and national stakeholders by strengthening national and regional capacity to control and reduce the proliferation and misuse of small arms and light weapons, and thus contribute to enhanced stability, security and development in South Eastern and Eastern Europe.

Regional Report on Arms Exports in 2007, Belgrade, 2009

Acknowledgements

The report was conceptualized and compiled by Mark Bromley whose ideas and writings reflect expertise we certainly do not master ourselves. We would like also to express our gratitude to the national authorities responsible for arms exports control in Albania, Bosnia and Herzegovina, the former Yugoslav Republic of Macedonia, Montenegro and Serbia who have made this report possible.

Introduction

The possibility of producing a regional annual report on arms exports for South East Europe was discussed at EU outreach events in Serbia (December 2007) and Slovenia (May 2008). Under the auspices of SEESAC an agreement was reached to produce a regional report at a conference in Montenegro (June 2009).

Several states in the region have already produced national reports that contain detailed information on their arms exports. These national reports should remain the primary source of information on each country's arms exports.

The production of a regional annual report on arms exports is intended to help to consolidate the gains in transparency that have already been made in the region, while also demonstrate an ability and willingness to uphold the commitments associated with the Council Common Position 2008/944/CFSP defining common rules governing control of exports of military technology and equipment.

The report is a practical example of successful co-operation within the framework of the Regional Co-operation Council (RCC). Moreover the report is evidence of the existing administrative capacity in the region and the desire to further comply with EU policies in the field of export controls.

The present report contains detailed information on arms exports of Albania, Bosnia and Herzegovina, the former Yugoslav Republic of Macedonia, Montenegro and Serbia during 2007. The methods of data collection and reporting format are based on those of the EU Annual Report on Arms Exports.

The report also presents data on transfers to United Nations-mandated or other international missions, contact information for the different ministries tasked with controlling transfers of conventional weapons, and details of regional activities in which at least two states in the region have participated.

The production of the regional report was made possible through the generous support of Norway.

ANNEX

Information on conventional arms exports by Albania, Bosnia and Herzegovina, the former Yugoslav Republic of Macedonia, Montenegro and Serbia over the period 1 January to 31 December 2007

The attached tables contain the following information:

D. TABLE SHOWING INTERNET ADDRESSES AND CONTRACT DETAILS NATIONAL AUTHORITIES RESPONSIBLE FOR ARMS EXPORT CONTROL

¹ See pages 3-4 below for brief descriptions of Military List categories.

² In many cases, transfers of controlled goods may pass through two or more states covered by this report before being delivered to their final destination. For this reason, there is likely to be a considerable amount of 'double counting' in this report, with the same transfer being reported multiple times by different states. The report should not, therefore, be used to generate an estimate of the combined value of the region's arms exports.

³ To make the table more readable, nil values and/or the mention 'not available' are omitted, and empty rows deleted.

⁴ Concerning the Republic of Serbia:

The Annual Report of the Republic of Serbia includes, inter alia, data on arms exports broken down by export destination – i.e. the country of the buyer, together with the data on the end-user country - while data in the EU Annual Report is broken down only by end user country. For this reason, data from the Annual Report of the Republic of Serbia may be different from the data published in the Regional Annual Report.

The Republic of Serbia's national regulations allow for situations where a number of different products - which may cover a range of different control categories - are attached to on one license. Such transfers have been marked with a single asterisk (*). Transfers in which the goods were delivered via another country in the region have been marked with two asterisks (**). Transfers in which the exports were allowed in accordance with exceptions in relevant Resolutions SC UN have been marked with three asterisks (***)

⁵ It was agreed that for the first report, there will be no data reported for the value of actual exports. The countries could consider including data on actual exports in future reports.
