

3 SALW Project Funding in SEE

The tables below give an overview of SALW project funding according to area and country of activity, indicating projects undertaken, project implementers and donors. In some areas, particularly 'SALW exports and trafficking and cross-border SALW control initiatives' and 'SALW Management Information and exchange systems and protocols', it is hard to identify project funding as such.

The majority of these activities were funded by Canada (through the UNDP ISAC project)

In addition to the activities listed above, a number of research projects and seminars on SALW issues in SEE countries or the region have been undertaken by international NGOs such as Saferworld, BICC and the Small Arms Survey; while these activities are obviously of great importance in assisting in the identification of SALW problems and solutions, they are not directly related to 'SALW interventions' and have therefore not been included in the table above.
