

### 3 SALW project funding in SEE

The tables below give an overview of SALW project funding according to area of activity and country, indicating projects undertaken, project implementers and donors. In some areas, particularly ‘SALW transfers’ (which has been combined with ‘Cross-border SALW control initiatives’ to include only regional SALW-specific activities), and ‘SALW management information and exchange systems and protocols’, it is hard to identify project funding as such, although some relevant initiatives and donors have been detailed.

The majority of these activities were funded by Canada (through the UNDP ISAC project).
