Gender Equality Trainers from the Armed Forces in the Western Balkans Support their Peers in Moldova

Chisinau, 9 – 12 March 2020

UNDP SEESAC supported the Senior Leader Seminar (SLS) and Gender Focal Point (GFP) training for the Ministry of Defence and the National Army of Moldova, organized by the Nordic Centre for Gender in Military Operations (NCGM) in Chisinau, Moldova. Gender Equality Trainers from the Armed Forces of Bosnia and Herzegovina (BiH) and the Army of the Republic of North Macedonia, nominated through the Regional Security Sector Reform Platform, delivered the sessions in SLS and GFP training. During these sessions they exchanged knowledge gained on integrating gender in security sector institutions from the Western Balkans.

The SLS - a half day seminar - targeted operational, strategic and political level personnel while the GFP was designed as a three-day course at tactical level for officers from the Moldovan MoD, National Army and Military Academy. The SLS and GFP were organized to support implementation of Moldovan Action Plan for UNSCR 1325.

Colonel Fahr Žilić, from the AFs of BiH and Lieutenant Colonel Antoinela Stankovska Budimir from the Army of North Macedonia - two gender trainers who have been actively involved in awareness raising and promotion of gender equality in the military - delivered learning sessions at the SLS and GFP and shared experience on integrating gender into defence policy and practice within the *Strengthening of Regional Cooperation on Gender Mainstreaming in Security Sector Reform in the Western Balkans* project.

The Regional Security Sector Reform Platform (RSSRP) was created by UNDP SEESAC in 2015 in cooperation with Governments in South East Europe (SEE). The RSSRP aims to provide quick, effective, demand-driven and short-term targeted technical support and foster South-South cooperation. The RSSRP includes a roster with over 50 experts from governments in SEE, including representatives of the MoD and AFs of BiH, North Macedonia, Montenegro and Serbia, due to their expertise in gender equality in the military.

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity.

How do we use cookies?

A visit to this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
