RSSRP Gender Trainers Support Training of Trainers Course held at RACVIAC

Trainers from the Regional Network of Gender Trainers, established with the support of SEESAC, Nordic Centre for Gender in Military Operations, the Croatian Armed Forces and RACVIAC - Centre for Security Cooperation, conducted a Gender Training of Trainers (GTOT) in Zagreb from 15 – 26 May, 2017.

Two Gender Trainers were deployed as a Course Director and Instructor to conduct this ten-day NATO accredited course through SEESAC's Regional Security Sector Reform Platform (RSSRP). The RSSRP has been developed by UNDP SEESAC in cooperation with the Governments in South East Europe with the aim to foster primarily South-South Cooperation through provision of quick, effective, and demand-driven, short-term targeted technical support.

The GTOT prepares and enables instructors and trainers in the military to successfully plan, conduct, and evaluate education, training, and exercises with an integrated gender perspective. This course provides participants with information and skills to develop plans and gender-oriented training programmes as well as to mainstream gender in other training or education curricula. In addition, this course seeks to build a strong team of gender trainers in the region, as was the case in the Western Balkans.

The RSSRP includes a roster of over 50 experts working on different aspects of Security Sector Reform processes, in particular on small arms and light weapons control, and gender mainstreaming in Security Sector Reform in SEE. They include police inspectors, high ranking military officers and specialists in anti-terrorism, stockpile management and ammunition maintenance, as well as arms transfers control professionals, lawyers, researchers. RSSRP has thus far already deployed its experts to Croatia, Georgia, the United Kingdom, Moldova and Kyrgyzstan.

[What is Cookie?](#)

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
