Increasing capacities of the Persons of Trust in the Ministry of Defence of Republic of Serbia to prevent and respond to gender-related discrimination

Vrdnik, 10 – 11 December 2019

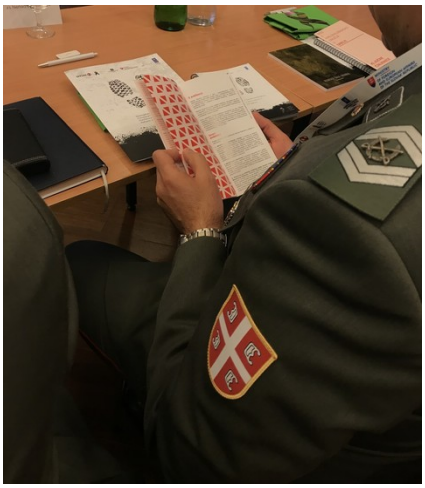

Twenty-two Persons of Trust that are providing primary peer support in cases of gender-based discrimination, sexual harassment and abuse participated in the seminar delivered by UNDP SEESAC. It was organized at the request of the Ministry of Defence of Serbia, to strengthen the capacities and enable Persons of Trust to work on prevention of discrimination and to effectively respond to cases of discrimination and harassment.

The interactive seminar ensured that the participants learn about the importance of gender equality in the defence system, international standards, as well as national legislative framework in the anti-discrimination area. It resulted in the improved practical knowledge and increased skills of Persons of Trust to recognize gender-based discrimination and distinguish it from the other forms of abuse at work. Furthermore, the seminar enabled discussion and networking.

In 2020, UNDP SEESAC will continue with education of the Persons of Trust at the request of the MoD of Serbia to further enhance capacity of internal complaints mechanism to prevent and response to gender-based discrimination.

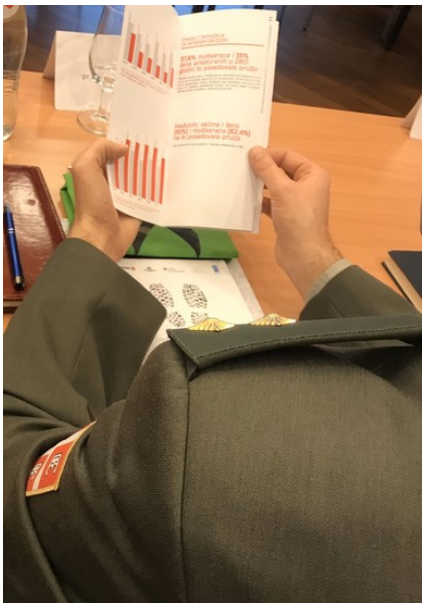

The Strengthening of Regional Cooperation on Gender Mainstreaming in Security Sector Reform in the Western Balkans project is financed by the governments of Norway and the Slovak Republic. With the support of UNDP SEESAC, the project provides the Ministries of Defence and Armed Forces in the Western Balkans with a platform where, over the next three years, they can exchange ideas and develop policies to ensure long-term and sustainable inclusion of the gender perspective in defence policies and practices.

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browse while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see you browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
