Bosnia and Herzegovina Prepares New Laws for the Control of Military and Dual-Use Goods Transfers

In the process of aligning its legislature to that of the European Union, the Ministry of Foreign Trade and Economic Relations of Bosnia and Herzegovina has prepared new draft laws on Arms and Military Equipment and Dual-use Goods transfers control. On 4 December, UNDP/SEESAC together with the European Union through the German Federal Office of Economic and Export Control (BAFA) assisted the Ministry in organizing a presentation of the new draft laws to the interested industry.

Approximately sixty (60) companies attended the Industry Outreach, where they had the opportunity to hear from the licensing authorities about the novelties of the newly drafted laws and to pose questions, provide comments and express their concerns.

During the event, additional input was provided by the licensing experts from the European Union, some of whom were consulted during the drafting of the laws.

Once all relevant comments and inputs have been incorporated into the existing drafts, the laws will be presented to the parliament for adoption.

UNDP/SEESAC supported the event within the framework of its Arms Exports Control project which aims to assist countries in the Western Balkans in their efforts to strengthen their arms exports control capacities and increase transparency. SEESAC's arms exports control activities are funded by the Ministry of Foreign Affairs of the Kingdom of Norway

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
