Regional Workshop for Border Officials of Western Balkans

On 23-24 November 2021 SEESAC jointly with FRONTEX organized an online gathering of Western Balkan Border and Custom officials.

This regional workshop is an additional step in SEESAC support to the capacity development of authorities to further strengthen border control as one of the central requirements for a comprehensive approach towards combating illicit trade and flows of firearms, essential components, ammunition and explosives in the Western Balkans.

During the workshop, participants were presented with risks and new technologies in the field of SALW that were identified in the EU as well as with potential vulnerabilities these risks could present to the WB jurisdictions

Further to the meeting, FRONTEX presented the new Common Integrated Risk Analysis Model (CIRAM) as a conceptual framework for the preparation of risk analyses as a key tool in ensuring the optimal allocation of available resources.

The main focus of the workshop was to jointly work and discuss towards finalization of the draft "Handbook on Firearms for Border Guards and Customs Officers for the Western Balkans". The workshop was an opportunity for another glance at all the chapters and further comments and suggestions by present counterparts. These interactive sessions brought up vivid and constructive discussions between the participants but also brought a new light to certain segments and contributed to final fine shaping of the document.

Handbook on Firearms for Border Guards and Customs Officers for the Western Balkans, developed by FRONTEX with SEESAC's support, is being created to enable better profiling, improved control measures and increased awareness of the various modalities of arms trafficking with a focus on smuggling methods, as well as guidelines on security measures that should be taken into consideration by the officers handling the firearms and ammunition detected at the borders.

This regional gathering was organized within the implementation of the European Union Council Decision (CFSP) 2019/2111 in support of SEESAC's disarmament and arms control activities in South-East Europe.

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity.

How do we use cookies?

A visit to this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
