

SEESAC supports development of the first Law on civil use of explosives in the Western Balkans harmonized with the EU regulatory framework

14 May 2020

Skopje, a new draft law on Explosives for civil use and pyrotechnical articles was discussed today in a workshop where SEESAC provided advisory support to the Ministry of Internal Affairs of North Macedonia to ensure harmonisation in the field of control of civil use explosives.

The new draft law, will guarantee that any explosive is designed, manufactured and supplied in such a way as to present a minimal risk to the safety of human life and health, as well as to prevent damage to property and the environment.

Explosives for civil use and pyrotechnic articles can and are often used by terrorists or crime groups. Therefore, through this draft law will be made sure that explosives but also pyrotechnic materials cannot be accessed by unauthorised persons.

SEESAC will continue to provide support in the area of law harmonization as part of the support provided to the implementation of the Roadmap for a sustainable solution to the illegal possession, misuse and trafficking of SALW and their ammunition in the Western Balkans by 2024, supported by EU Council Decision (CFSP) 2019/2111.

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see your browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
