SEESAC Organises Seminar on Gender Perspective for Teaching Staff of Military Academy of North Macedonia

UNDP SEESAC, at the request of the Ministry of Defence of the Republic of North Macedonia, organised a one-day seminar on gender perspective for the teaching staff of the Military Academy in Skopje, North Macedonia on 20 September. The seminar gathered twelve teaching staff members who will use the gained knowledge to enhance gender equality in the Army of North Macedonia.

By organising the event, SEESAC aimed at achieving a shared understanding of the importance of mainstreaming gender perspective in the military education among the participants. It also sensitised the teaching staff on the gender perspective and informed them of the requirements stemming from the international and national legal framework.

Through three sessions, the participants learned about statistical data on the position of women and men in North Macedonia, stereotypes and prejudice as causes of discrimination, as well as gender and security sector reform, focusing on the gender in military education. They also conducted a joint exercise addressing the question of how gender perspective is included in the selected subject matter areas taught in the military academy.

This activity was implemented within the Strengthening of Regional Cooperation on Gender Mainstreaming in Security Sector Reform in the Western Balkans project and is financed by the Governments of Norway and the Slovak Republic. With the support of SEESAC, the project provides the Ministries of Defence and the Armed Forces from the Western Balkans a platform where, over the period of three years, they work together to ensure long-term and sustainable inclusion of the gender perspective in defence policies and practices, contributing to accountable and responsive institutions and inclusive societies (SDG 16) and gender equality (SDG 5).

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see you browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
