Stockpile Reduction Through SALW and Ammunition Destruction

One of the ways to diminish the risk of Small Arms and Light Weapons (SALW) proliferation is by reducing the significant stockpiles of weapons and their ammunition in existence throughout South East Europe (SEE). With this in mind, supporting national authorities in SEE to dispose of their surplus, confiscated SALW and their ammunition has been developed into a key component of the EU Support of SEESAC Disarmament and Arms Control Activities in South East Europe (EUSAC) project.

Within the scope of this component, **17,266 SALW, 4,967 SALW parts and components and 12,867 pieces of ammunition** were disposed of in: Albania, Bosnia and Herzegovina, Kosovo*, Moldova, Montenegro, Serbia, and the former Yugoslav Republic of Macedonia.

With regards to ammunition, 12,442 units of ammunition were marked for destruction in Montenegro. This activity was implemented in cooperation with the MONDEM (Montenegro Demilitarization Programme) project, managed by the United Nations Development Programme in partnership with the OSCE.

*References to Kosovo shall be understood to be in the context of Security Council Resolution 1244 (1999).

Cookies on our web page

What is Cookie?

A cookie is a small piece of data sent from a website and stored in a user's web browser while a user is browsing a website. When the user browses the same website in the future, the data stored in the cookie can be retrieved by the website to notify the website of the user's previous activity

How do we use cookies?

A visit to a this page could generate the following types of cookie.

Strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website. Without these cookies services you have asked for, like shopping baskets or e-billing, cannot be provided.

2. Performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

3. Functionality cookies

These cookies allow the website to remember choices you make (such as your user name, language or the region you are in) and provide enhanced, more personal features. For instance, a website may be able to provide you with local weather reports or traffic news by storing in a cookie the region in which you are currently located. These cookies can also be used to remember changes you have made to text size, fonts and other parts of web pages that you can customise. They may also be used to provide services you have asked for such as watching a video or commenting on a blog. The information these cookies collect may be anonymised and they cannot track your browsing activity on other websites.

4. Targeting and advertising cookies

These cookies are used to deliver adverts more relevant to you and your interests They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with the website operator's permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

Cookie management

Cookies can be managed via the web browser settings. Please, see you browser help how to manage cookies.

On this site you can always turn cookies on/off on menu item "Cookie Management".
